

5-port 10M/100M Desktop PoE Fast Ethernet Switch

Features

- 5 Port 10/100M (Auto-negotiation) Switch
- 4 PSE/PoE function ports
- IEEE 802.3 af/at
- Supporting the power Max. 30 W for each PSE/PoE port
- Auto-detect full/half-duplex modes for any port
- Dedicated full-duplex 200Mbps bandwidth Store-and-Forward switching methods
- IEEE 802.3x flow control for full-duplex and back-pressure flow control for half-duplex
- Non-blocking full wire speed forwarding Auto-MDI/MDI-X function for any port

Description

This switch provides 5 10/100M ports. It was designed for easy installation and high performance in an environment where traffic is on the network and the number of users increases continuously. It consists of 4 PSE/PoE ports. That can solve the limitation of the power outlet location and offer the system designer a flexible solution to locate the network device everywhere. The palm size was specifically designed for small to medium workgroups. It can be installed where space is limited; moreover, it provides smooth network migration and easy upgrade to network capacity.
