

16-Port Unmanaged GbE PoE+ Switch

Features

- Built in Device Management System (DMS)
- PoE Port configuration and scheduling
- IEEE 802.3af/at Power over Ethernet
- IEEE 802.3az EEE Energy Efficient Ethernet standard for green Ethernet

Description

PS3188F unmanaged GbE PoE+ switch is a plug-and-play Ethernet switch offering easy way to make the transition to Gigabit Ethernet and increase the speed of your network connection. The energy efficient, built to last, and rigorously tested provide the reliability businesses need.

PS3188F delivers 16 (10M/100M/1G) RJ45 with 16 PoE+ (Support 802.3 at/af, and total up to 250W) ports and 2 GbE SFP ports. PS3188F provides high HW performance and environment flexibility for SMBs and Enterprises.

The embedded Device Managed System (DMS) features provides users with the benefits of easy-to-use/configure/install/troubleshoot in the video surveillance, wireless access, and other SMBs and

Enterprises applications. PS3188F is ideal to deliver management simplicity, better user experience, and lowest total cost of ownership.
