

1 port High Power PoE Splitter

Features

- Input Voltage : 36Vdc ~ 60Vdc input or 40Vdc ~ 60Vdc
- Output Voltage : 5Vdc, 12Vdc, 24Vdc & 24Vac
- Output current : 660mA~2.4A
- Output Power : 25W ~ 80W
- Efficiency : 75% ~ 86%
- Short circuit and Over load protection

Description

The Splitter provide the Data & Power (Vdc or Vac -- 5V, 12V, 24V, 24Vac, ...etc.) to the Ethernet-enable devices. With PoE, user can eliminate the power adapter requirement which usually needs a power outlet. that gives you flexibility for the installation.
