Description

The IPS2102E is 10X Day & Night 1080P HD PTZ Dome IR IP Camera that compliment LILIN's already established HD PTZ series of cameras. The camera can be powered through High Power over Ethernet, which complies with the PoE standard IEEE 802.3at. The high-speed dome is capable of streaming HD video at up to 30FPS. Featuring LILIN's Wide Dynamic Range (WDR) feature, the IPS2102E captures highlights and shadows simultaneously, eliminating pixilation and smear. Combine this with Digital Noise Reduction technology and adaptive tone reproduction and the contrast of images in bright or dark areas is dramatically improved. Capable of making 360° continuous panning, users can accurately position the camera to identify specific targets. The 10x optical zoom gives the IPS2102E an impressive range. With a focal length of 4.9□49mm, and up to 128 programmable preset positions, the IPS2102E is ideal for numerous applications.

Further features include privacy zones, comprehensive scheduling, 2-way audio, weighted mode, digital PTZ, alarm activation by motion detection. Connecting the cameras to your IP system is simple. Pair them with our NVR Touch series, and the installation wizard, WS Discovery, will locate all IP cameras on the network and generate a snapshot image of each channel. This will help with identification and greatly speed up camera setup.
