Description

NVR109 is a 9-channel IP standalone Network Video Recorder offering 25 frames per second for each channel at a full 1080P resolution. Touch screen, mouse, LILIN twist zoom keyboard or IR remote control, easy to navigate menus, supporting 4 SATA hard drives, motion detection, weighted and scheduled recording. Audio recording and playback. WS discovery for easy network discovery. USB or network backup. HD output. Full CMX support, web based remote viewing & iPhone, Blackberry and Android support. Multi-touch screen supported

The touch-screen increases operator speed and minimizes the time taken to learn the system. The NVR 109 also has an automated installation wizard (WS Discovery) which locates all the cameras on the network and imports a preview picture of each channel to help with identification. The NVR Touch offers a superb standalone solution for managing and recording IP cameras.
