

USB MICROPHONE

Features

- High performance microphone for NVR and NAV recorder.
- High sensitivity that provides an effective distance above 2m, breaking free the 0.5m–1m limit of traditional microphones.
- No adaptor is required for recording, automatically replacing the microphone on your internal sound card.
- Plug & play for USB-enabled PC and Mac (XP or above).
- 360° omnidirectional microphone featuring noise-canceling, suitable for computer recording.
