- Mobile phone (iOS, Android) solutions provided
- Network input through up to 300Mbps (RAID 160Mbps)
- Software RAID 1/5/6 supported
- Chrome, Edge, Firefox, IE, Opera, Safari supported
- 3.5" Swap drive bay

Description

NVR5832S standalone NVR is a new generation of professional NVR series from Li Ling. The NVR5832S supports up to 32 Ultra HD 4K IP cameras. Ultra HD (4K or 8 megapixels) is four times clearer than 1080p.

Additional pixels allow you to see more details. The NVR5832S supports eight 8TB hard drives and it has two eSATA connectors to expand 32TB. Through LILIN IPScan and WS-Discovery feature software, you can quickly connect the camera to the recorder, making the NVR5832S network video recorder easier to use. NVR5832S is mainly used in the high-end megapixel surveillance market, such as medium and large enterprises and factories, restaurants, retail chains and intelligent buildings.
